Alden Molina

Full Stack Software Developer

Summary

Motivated full-stack junior software developer, experienced with creating professionally programmed applications with emphasis on team-oriented dynamics. Looking forward to joining a team of developers in creating inventive design and meaningful programs and applications.

Education

Jan 2019 - May 2019

We Can Code IT

Engaged in a full-time, 5-star-rated coding boot camp, learning agile full-stack software development from expert instructors and intensive hands-on projects. Planned, designed, and developed professionally programmed applications in collaborative team-based and independent settings.

Projects:

- *Portfolio:* Created a website to communicate personal work experience as well as illustrate story and personality. Used traditional front-end programming techniques and languages like HTML/CSS, and JavaScript.
- *MenuHunter:* Built a website that provides a database of restaurant menus and food reviews that helps make it easier for people to decide what food to eat.
- *Disney Report:* Developed a review website using MVC and Entity Framework that included the ability for the user to add, edit, and delete database values.

Sep 2018 - Dec 2018

University of Michigan, Fundamentals of Python Specializtion

Fundamental programming concepts including data structures, networked application program interfaces, and databases, using the Python programming language.

Projects:

- *Web Crawler:* Create a Python application that can automate the generation of SQL databases by accessing, parsing, and scraping web data.

Aug 2010 - May 2014

Hiram College, Nursing major, Double minor in Biomedical Humanities and Psychology

Experience

Mar 2010 - present

Hibachi Chef

Wasabi Japanese Steakhouse

- Collaborate with dining staff to improve efficiency and reduce wait time for overall guest stay.
- Supervise the preparation of specialty items and customer requests to verify accuracy in production.
- Monitor kitchen area and staff to ensure overall safety and proper food handling techniques.
- Plan and prepare food products orders to maintain appropriate stock levels.
- Actively comply with all health department regulations.
- Encouraged and supported team-centered environments to boost overall efficiency and customer satisfaction.
- Selected as team trainer for all new hires.
